Art Unit: 2816

1. The amendment filed on 8/26/04 has been received and entered in the case.
2. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.
3. Claims 1-5, 7, 8 and 10-22 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

It is not understood what is meant by "integrated control signal". Signals are not "integrated", elements are (e.g., transistors, capacitors, etc). In other words, it cannot be determined what the difference is between an "integrated" control signal and one that it not "integrated".

4. Claims 1, 21 and 22 are rejected under 35 U.S.C. 102(e) as being anticipated by Coughlin, Jr et al.

The recited first latch is latch 14 and the recited second latch is latch 16. The "integrated" control signal is signal B in Coughlin, Jr et al, and note that when signal B is low logic level, latch 16 is in the state saving mode (see column 3, lines 42-45) and when signal B is high logic, latch 16 is in the state

restoring mode (as described in the sentence bridging columns 3 and 4). The cut-off control device of claim 21 is the combination of FETs T16 and T18.

5. Claims 3-5, 7, 8 and 10-20 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.

Claim 2 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

6. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will

Art Unit: 2816

expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.

7. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Kenneth B. Wells whose telephone number is (571)272-1757. The examiner can normally be reached on Monday through Friday from 8:30am to 5:00pm.
